## **PONSI Credits**

[http://www.nationalponsi.org/colleges/list\\_of\\_colleges.htm](http://www.nationalponsi.org/colleges/list_of_colleges.htm)

Students who successfully complete and pass the EMT-B course and examination may be eligible for college credit by asking their college about their policy on accepting PONSI credits. The above website lists all colleges that accept these credits. Additionally, most colleges will give a reduction in dormitory fees if your child has their EMT-B certification. Please make sure to ask about this! Our EMT-B course is provided in conjunction with the Nassau County Emergency Medical Services Academy. Their examination and certificate should be all the documentation you need.

## **TUITION Reimbursement Program**

High School seniors who will attend colleges located in Nassau County should be made aware of this important program. Students who become members of their local county emergency service unit will be eligible for tuition reimbursement when they attend a college located within Nassau County.

The law is designed to assist with the recruitment and retention of volunteer workers. The scholarship can be used at any accredited college in Nassau County; however it cannot exceed the equivalent cost of tuition for a full time student at Nassau Community College. The reimbursement can be granted for a maximum of eight full time semesters or 120 credit hours and may be awarded on a full or part time basis.

Applicants must meet several requirements to receive the reimbursement award; recipients must be a resident of Nassau County, they must meet and agree to maintain local fire department or auxiliary police department volunteer membership requirements, and be a new or active member. He/she must be accepted to an accredited college in Nassau County, apply for all sources of financial aid, enroll as a matriculated student, and maintain their status as a student in good standing.
